Bain R
Conversion to electronic toll collection: a Puerto Rican case study **10.416**

Bain R
ETC – a Puerto Rican case study Part 2 **11.448**

Barbier-Saint-Hilare F, Friedrich M, Hofstaff I, Scherr W
Advanced modelling of road toll schemes **4.154**

Bulpitt M
Developing a parallel road infrastructure **11.442**

Coombe D, Skinner A, Simmonds D, Davidson B
Strategic environment assessment in the trans-pennine corridor **7.266**

Coombe D, Thompson R, Miric M, Krasic D
Developing a transport master plan for Zagreb **9.352**

Crawford D
Road charging - not just a London issue **5.184**

Dale M, Smith R
Estimating London's parking space capacity **8.325**

Davis A
Panacea or Placebo? **6.221**

Dougherty M and Burghout W
Driver compliance with idling time limits **2.60**

Enoch M
Mauritius - witnessing accelerating congestion **2.46**

Fox K,
SMARTEST - New Tools for evalutating ITS **1.20**

Gilmore J
How radical measures can end a century of slaughter on the roads **9.361**

Hunt J, Lyons G, Parker M
Evaluating alternative operating strategies at Pelican crossings **10.402**

Ibrahim D
Improving accuracy for GPS vehicle navigation systems in London **6.228**

Ibrahim D
Is GPS now ready for intelligent transport system applications? **8.309**

Ison S
Survey of attitudes to urban road pricing at local authority level **3.102**

Japs B
Minimising pedestrian delays at signal controlled crossings **5.200**

Kellermann G
Experience of using the hard shoulder to improve traffic flows **10.412**

Lawson S, Butler A and Downing E
Motorists' Concerns in six European countries **1.14**

May A, Bogenberger K
Simulating traffic on the Munich autobahn **8.304**

May A, Bogenberger K
Simulating traffic on the Munich autobahn Part 2 **9.364**

May A, Hodgson F, Jopson A, Milne D, Tight M
A comparison of four travel demand management measures **10. 396**

Mekky A
Forecasting daily usage of a toll highway **5.186**

Menon, Gopinath A P
ERP in Singapore - a perspective one year on **2.40**

Moore P, Simmonite B
LINSIG for Windows - seeing the big picture **5.194**

Ogden K, Morgan R
Safety and the motorcyclist **3.85**

O'Mahony M, Geraghty D and Humphreys I
Distance and time based pricing in Dublin **1.17**

Ow P
The future of vehicle multimedia systems **4.148**

Parkhurst G
Link-and-ride – a longer-range strategy for car-bus interchange **8.319**

Petruccelli U
Traffic calming – a review of techniques and their effectiveness **11.458**

Redfern R, Thomas M, McCallum D
Public consultation as part of the TIGER market research study **9.372**

Reinhold T, Matthias G
How to minimise journey times by the use of ramp metering **6.236**

Retting R, Williams A
Red light cameras and the perceived risk of being ticketed **6.224**

Retzko H
Involving the public in urban transport planning **11.444**

Roth G
Is it time to take the politics out of transport? **7.273**

Sanchez de Muniain J
Will the school bus be effective in reducing school-run congestion? **8.298**

Schlag B, Schade J
Public acceptability of traffic demand management in Europe **8.314**

Semmens J
A practical approach to solving the problems of uninsured drivers **8.312**

Silva P C M
Simulating bus stops in mixed traffic **4.160**

Simpson D
EN 12767 – a new tool in accident reduction **7.264**

Simpson B
Road pricing – an opportunity to extend genuine priority to buses **9.349**

Spence J, Rowlands P, Whipps C
MOVA – performance at partially signalled roundabout **7.262**

Tyler N, Brown N
Public participation in transport decisions **3.88**

Wall G
Road markings to improve pedestrian safety at crossings. **4.136**

Wang Z
Critical gap and traffic volume – re-examining the relationship **7.275**

White C, Foster-Clark J, Lee A and Salter S
Developing a strategy for Blackwater Valley **2.58**

Wolshon B, Degeyter R
Field performance analysis of traffic sign retroreflectivity **3.96**

Wright C
Look after your car - leave it at home! **3.94**

Wright S D, Bell M G H, Grosso S, Cassir C, Etches A and Parker D
Introduction to the UTIS database for Newcastle upon Tyne **3.104**
